### **PROJECTS**

#### **Personal Portfolio Website**

Global URL: <https://portfolio-jl-jie-liangs-projects.vercel.app/> (Accessible worldwide; restrictions in China)

China URL: <https://portfolio.jieliang.fun/> (Optimized for access within China)

Github: <https://github.com/Molly503/portfolio-jl>

**Tech Used:** HTML, CSS, JavaScript, Vercel, Alibaba Cloud

#### **Description:**

- Designed with a user-friendly, responsive layout, the site features sections on my project work, technical skills, professional background, and a direct method for contacting me.

- Built with HTML, CSS, and JavaScript, the website exemplifies a clean and modern design aesthetic, ensuring a smooth user experience on any device.
- Hosted on Vercel for global access and on Alibaba Cloud to ensure availability in China.

**Brochure Website: TechTutor**

Global URL: <https://landing-page-formal.vercel.app/>

China URL: <https://techtutor.jieliang.fun/>

Github: <https://github.com/Molly503/landing-page-formal>

**Tech Used:** Vite, React, Tailwind CSS, Vercel, Alibaba Cloud

**Description:**

- Designed a user-centric landing page showcasing popular courses, categorized educational tracks, real-time student feedback, and direct support contacts.
- Leveraged Vite and React to ensure a responsive and dynamic user interface.
- Utilized Tailwind CSS for modern and flexible page layouts that adapt to different device screens.
